Subject: FOIA Clarification

Mr. Owens: Pursuant to our telephonic communication, this is to clarify that in submitting FOIA request: EPA-R8-2016-008914, submitted by Joro Walker of this office on July 28, 2016, it was not our intent to request any internal communication regarding the Navitus project. Instead, our intent was to request any external communication you may have had with either the company or the Utah Department of Environmental Quality (including the Utah Division of Air Quality) regarding this project. We are specifically interested in EPA's position regarding whether NSPS AAAA or similar provisions of the CAA apply to the Navitus facility, and your communication of that position to the state of Utah.

If you need any further clarification regarding this FOIA request, please don't hesitate to let me know. Thanks for your help with this.
